

Live colorfully

A comfortable routine can be a relief when you have epilepsy.

But if seizures are always in the back of your mind, your routine may be holding you back.

Transition: B&W explodes into color frame

Life has more to offer.

Are you missing out?

Background Visual: Environmental influences (city, beach, clubs, swings, etc)

Talk to your doctor about gaining more control of your seizures with Stedesa.

Background Visual: Personal influences (fears, triggers, etc)

Live a life in color.
